DETAILED ACTION

1. Claims 1 to 14 are presented for examination. The amendment filed 12-27-2005 canceled claims 1 to 14 and add new claims 15 to 16.

Response to Amendment

Allowable Subject Matter

2. Claims 15 and 16 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art made of record teaches a method for testing a circuit that includes embedded circuit and customer circuitry using a test pattern generator. The prior art made of record also teaches that a partial netlist is generated for the embedded core and scan flip-flops are used in providing input/output connections for testing.

However, the prior art made of record, taken alone or in combination fails to teach or fairly suggest or render obvious the novel element of the instant invention of using a pseudo-pin input. Specifically, the prior art made of record fails to specifically teach the recited limitation of "define at least one pseudo-pin input for at least some of the circuitry in the partial netlist."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
